

Easter egg number games

You need to:

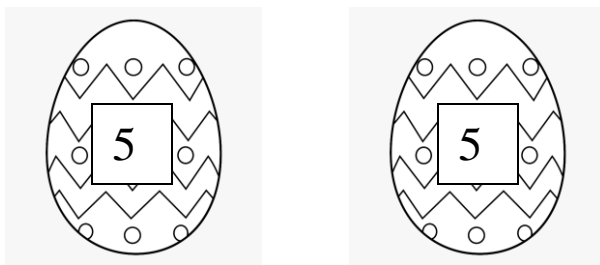

- cut 12 Easter egg shapes out of paper
- decorate your Easter eggs
- write numbers 0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 on them and write another 5 on the last one.
- find a hat to put them in or make an Easter bonnet or Easter basket to put them in!

Challenges:

Start by putting all your numbered eggs in your hat, box or bonnet.

Now can you:

- match up your numbered Easter eggs to make totals of 10?
- can you do it faster?
- take out 2 Easter eggs and add the totals together?
- can you write down your calculation?
- take out 3 Easter eggs and add the totals together?
- This is the big one!
- can you write down your calculation?

$$5 + 5 = 10$$
